

Hello NetCOLOR community,

We will host a webinar on September 29th between 2-3pm EST to take the pulse of the NetCOLOR community.

You have new results, started a new project, or just want to share preliminary findings, the webinar is a good opportunity to present your work to the community. We will host three 15-minute talks + 5-minutes questions. The webinar is informal, and we strongly encourage post-doctoral fellows and graduate students to come forward and show their research.

Please submit your title and abstract to Claudine Ouellet (claudine.ouellet@takuvik.ulaval.ca) by September 17th.
